- 2. Personalized skills feedback:** The feedback students receive helps identify skill gaps and provides suggestions for closing those gaps while there is still time for significant improvement.
- 3. College search options:** Students will receive portal access through Collegeboard to research colleges of interest based on student information.
- 4. Free Khan Academy:** Web based tutorial system with many instructional videos.

Sophomores who take the test do not qualify for the National Merit program. However, over 90% of National Merit Finalist report that they took the **PSAT/NMSQT®** more than once.
