CTA Technology in the Classroom

Integrating technology into the classroom helps prepare our students for the technology-focused world they will be facing moving forward and impacts their learning process today. Additional benefits include longer periods of focus for students, increased excitement to learn, empowerment with rapid access to information, unleashing collaboration skills and using the world as their classroom. CTA Freedom Dad's Club First Annual Falcons Foursome Golf Tournament supports this initiative with fundraising efforts paired with great fun and companionship.

Mission Statement

CTA Freedom's mission is to provide a rigorous academic environment that also supports the development of respect, responsibility, and citizenship

Tournament Format:

-Four Person Team Scramble-

The four-man scramble features teams of four players competing against one another. In this format, each team's players hit from the tee box. Then, the team members choose the best of the four shots for the next shot. All team members then play the second shot from that chosen location, and again choose the best shot. Play continues in this manner until the hole is completed. The team records its score and maintains this format for all 18 holes.
