❖ Andersen Elementary Site Council

The Andersen Elementary Site Council is a site-based group, composed of three parents, three teachers, one support staff member, one community members and one school administrator. The purpose of the Site Council is to work collaboratively with the principal on the continuous improvement of the school.

This is accomplished by studying current educational research and thinking, by examining the current educational program at Andersen Elementary, and by seeking input from staff, parents, and students to set school goals and strategies to achieve them. Site Council meets about five times per year

We are currently looking for parents and a community member to join our council. If you are interested, please contact Mel at 480-812-6007. Thank you for considering joining our council.
