

## Monthly Author's Study: April

Your child should read a minimum of 15 minutes each night. This month's featured author is Louis Sachar. Students will receive a nickle for each picture book and a dime for each chapter book from the list below that they read. These coins can be used at our class store. Please write your initials next to each book your child completes and return the sheet at the end of the month. If your child chooses to read stories not included on the list, they are still able to earn coins up to the amount possible for reading the author study books. Have them write the titles of the books in the space provided. Thanks!

**Initials:**
