# Benefits of Dual Enrollment

---

- Increases retention and completion of college
- Higher GPA, higher retention (80.7% vs. 64.5%), higher completion (3.5 X) in college
- Helps prepare students for the academic rigor of college
- Helps with job placement
- Provides realistic information to high school students about the skills they need for college.
- Saves time and money by compressing the years of financial support needed to attend college
- Creates a smoother transition for students

# Dual Enrollment, AP, and Concurrent Enrollment

---

## Dual Enrollment

Dual enrollment students earn a college grade and credit while attending their high school classes. The grade the student earns for the high school course is the grade that will show on their college transcript.

## AP (Advanced Placement)

Students in AP classes can receive college credit based on the score they earn on the AP exam. Colleges can vary on what score is necessary for them to accept the exam for credit.

## Concurrent Enrollment

Concurrent enrollment students take classes at the community college in addition to their high school classes.
