# ELEMENTARY SCHOOL STUDENTS DEVELOPMENTAL NEEDS

The elementary years are a time when students begin to develop their academic self-concept and feelings of competence and confidence as learners. They are beginning to develop decision-making, communication and life skills, as well as character values. It is also a time when students develop and acquire attitudes toward school, self, peers, social groups and family.

I can't promise to fix  
all your problems  
but I can promise  
you won't have to  
face them alone.

Your School  
Counselor
