The math department at Casteel High School is proud to present:  
The Tutoring Schedule!

This schedule will show you different teachers that have tutoring hours throughout the week. We recommend that you schedule and see your teacher for tutoring has many times as possible. However, if your teacher is not available at that time please go and see another teacher that has tutoring offered at the time you need to be scene. This schedule is subject to change depending on meetings, athletics, or other events that take place.

All the math teachers offer tutoring during conference periods and can setup other times as needed...  
The most important part is that you communicate to your teacher and not wait to get help!
