At-Home Challenge

Reading: Grab a book, magazine, newspaper, etc. and spend some time reading! Your job today is to **DROP EVERYTHING AND READ for 20 minutes!**

Make a book/magazine review. You can write a paragraph, create an advertisement, or create a video explaining to others why they should read the book/newspaper that you enjoyed today. Be creative!

Math: Today I want you to determine the value of different names. For this challenge, you will have to convert each letter of the alphabet into a number. A=1, B=2, C=3, D=4, E=5... all the way to Z=26.

Find the value of ten different classmates names. Who has the name with the greatest value? The smallest value? Order your ten names from least to greatest when you finish! (It might be easiest to write out the value of each letter on a piece of paper before doing any adding.)

STEM Challenge: What can you make with a toilet paper/paper towel roll?

Find an empty roll of toilet paper/paper towel at your house and turn it into something COOL! You can use any additional items with your roll, but make sure you are CREATIVE. When you are finished, share with us what you made and why!

My Emotional Health Scavenger Hunt
