Diigo: Collect, save and tag your online resources for easy access anytime, anywhere

Suppose you find an article that you want to save for later. You can save a link to that article in your Diigo library—this is just a list of links, organized by subject. But there's more: When you save an item with Diigo, you can also highlight it and add sticky notes right on the web page itself; Diigo basically saves your own personal copy for you. Articles can also be tagged by topic, making it easier to find as your library grows.

How do I Conduct Academic Research?

Resource	Description	Website
A Scholar's Guide to Google **Harvard Library**	This guide is intended to help Harvard students and researchers better understand how Google works, how to use a variety of search operators, and how to navigate Google Scholar, a special flavor of Google specifically designed for searching scholarly literature.	https://guides.library.harvard.edu/c.php?g=310028&p=2070667
Colorado State University **Library Research Guides**	HOW TO DO LIBRARY RESEARCH This set of pages has information on how to do library research. In all cases, once you have located sources, be sure to evaluate them, using the evaluation guides.	https://libguides.colostate.edu/howtodo
