Helping Your Child at Home: Home Connect and Fidelity

So, the new year has begun and it's time for AR reading. Whether you are experiencing AR for the first time or are a veteran, here are some great ways to help from home.

- Have students read aloud to you. Whether it's every book, or once a week, reading aloud is a great way to hear your child's fluency.
- Create a sense of independence by allowing students to test independently
- To test with fidelity, neither student nor parent should look back to the book for answers.
- Use Home Connect by logging into the link below.

Keeping Track of Goals

Three goals toward becoming a better reader

1. **Points Goal:** Students are expected to achieve a certain number of points. This goal is set by their teacher. It derives from a STAR test they take in class that measures how many points they should be reaching each quarter. Books are allotted different points depending on length and vocabulary. A book may be worth .5 (1/2point) or 20 points; it all depends on the difficulty.
2. **Percent Correct Goal:** Students are expected to keep an accuracy average of 85-90% when testing on books. This means the books they are reading are a good balance of success and challenge.
3. **Five Point Non-Fiction Goal:** Students are expected to read at least 5 points of non-fiction each quarter. This a personalized goal created by CTA Freedom. This goal was created to make sure students are successful in reading to learn. 80% of a student's academic reading is non-fiction. Our goal here at CTA Freedom is to produce life-time learners.
