

This is the Doubles Rap to help your child learn their doubles facts. The doubles facts are the base of ALL math facts that we are learning in Kindergarten. It would be VERY helpful to practice nightly with homework until your child is fairly fluent. We will be practicing each day in class as well.

Doubles Rap

It's the doubles, baby, let's go, let's go!
It's the doubles baby, and we start with zero:

$$0 + 0 = 0$$

$$1 + 1 = 2$$

$$2 + 2 = 4$$

$$3 + 3 = 6$$

$$4 + 4 = 8$$

$$5 + 5 = 10$$

$$6 + 6 = 12$$

$$7 + 7 = 14$$

$$8 + 8 = 16$$

$$9 + 9 = 18$$

$$10 + 10 = 20$$

Oh!

Ooooooh!

More!

Kicks!

That's great!

Again!

That's swell!

Let's lean!

Really keen!

Jelly bean!

That's plenty!
