- 2) Click on “Today” which is just below Message Center.
- 3) The Student Number is the six-digit identification number that will be used to login to Google Classroom and other applications that your child may use. This is the number that would replace “ID” in usernames and passwords.

*Note- The student number is important for you and your child to know and will stay the same the entire time your child is a student in the Chandler Unified School District.
