

Hi Fourth Grade Families -

Week 4 learning for math and ELA are below. The goal is that each assignment is to take 35 minutes, but we know some lessons take longer or shorter depending on the student. These lessons are to provide preparation for the next grade level, and to receive a passing grade, your student must attempt and engage in the lessons assigned. By 7pm Sunday of every week, we would like you to email us. In this email, please state if your child has: completed the weekly assignments, has had any struggles, or if they are still working on their assignments. As always, please let us know if you have any questions or concerns with the material or the lessons. We are here to help!

Thanks! - The Fourth Grade Team
