

Hi Fourth Grade Families -

Week 6 learning for math and ELA are below. The goal is that each assignment is to take 35 minutes, but we know some lessons take longer or shorter depending on the student. These lessons are to provide preparation for the next grade level, and to receive a passing grade, your student must attempt and engage in the lessons assigned. By 7pm Sunday of every week, we would like you to email us. In this email, please state if your child has: completed the weekly assignments, has had any struggles, or if they are still working on their assignments. As always, please let us know if you have any questions or concerns with the material or the lessons. We are here to help!

Thanks! - The Fourth Grade Team

Week 6: May 5-8

Math:

[Online Saxon Math Book answers](#)

[Student Work Saxon Math Lessons 115-117](#)

Monday, May 4

[Dividing with Decimals](#) (Khan Academy video)

Friday, May 8

ATI Practice & Test - Refer to the tab on the [CTA Liberty website](#) under Fourth Grade News – titled

ATI Practice and Test Materials

Practice & Test– Understanding Points, Lines, and Angles

Week 6 ATI Math answers: 1. D (angle)

ELA:

Monday, May 4

ELA analyzing text answers

Read and Analyzing the Text (There are more pages than needed – only need pages 179-181, 182-184.

Reading – Read the article The Spelling Bee pages 179-181, answer questions 20-25.

Writing – Read the prompt found in the read and analyze link. (The writing is located after the Spelling Bee passage): Think about an important invention that has made your life easier. Create a bubble map listing all the ways life is easier because of the invention.

Tuesday, May 5

Reading – Are you reading a book at home? Please share, via email, with your teacher the chapter book you are currently reading.

Writing – Using the bubble map from yesterday, create a rough draft to explain in writing how that invention has made life easier.

Wednesday, May 6

Reading – Read the passage Mary Anderson and Florence Lawrence Pave the Way for Safer Automobiles pg. 185-186, respond in complete sentences to questions 1-2. FYI- We will continue this story in week 7.

Writing – Edit and revise your rough draft from yesterday and turn it into a final draft.

Friday, May 8

ATI Practice & Test - Refer to the tab on the CTA Liberty website under Fourth Grade News – titled ATI Practice and Test Materials

Practice & Test – Drawing Conclusions About a Text

Week 6 ATI ELA Test Answers: 1.B 2.D 3.C 4.C

DLI:

We will continue with enrichment activities. Now located on the CTA-Liberty website under Spanish immersion is a link with several websites to help with enrichment. Please check it out here.

Science:

We will continue with enrichment activities. [Mystery Science-Why Do Some Volcanes Explode?](#)
