# To Make a .jpg File Using your Samsung Digital Presenter…

Go to START and PROGRAMS
Look for SDP (Samsung Document Presenter)
Open the software
You should see a box similar to this:

You will be able to use all of your zoom/focus buttons, etc.
When you are ready, click on CAPTURE

After selecting *capture* select *save* to save the image to a folder in your F drive.

If you want to change the image to be saved, select *release*.

You may want to make a folder in your F: or K: drive that says Document Camera Images to save the files!!
