

Websites for Gifted Students

This is a collection of websites for gifted children of all ages – covering math, science, sustainability, crafting, art, music, reading, geography, history, writing, and more. Make sure you check out our new list of [Books for Gifted Children](#), and our [Top 10 Games for Gifted Children](#)!

Multi-Subject Websites for Gifted Kids

- [ABCya.com](#) – Organized by grade level from K-5, so would be appropriate for gifted kids starting around age 3. I like when websites are organized by age/grade because then we can just hop up about 2 grades/levels and we're usually at a good starting point. This website has some fantastic content and games – spelling bee games, word searches, sight words, typing and keyboarding games, math bingo, geography games, and more.
- [Enchanted Learning](#) – Definitely a must visit for crafty kids. I have used the printable worksheets from this site for both of my kids from age 2 and up. We use it constantly even today... definitely spring for the membership if you can afford it. (Also great for toddlers and preschoolers)
- [Freerice](#) – Answer questions to end world hunger!
- [World Book for Kids](#) – Articles, illustrations, games, activities, dictionary, and atlas
- [Time for Kids](#) – Multi-subject activities, worksheets, printable quizzes and more for K-6, from the publishers of Time Magazine
- [Brainpop](#) – Animated educational site for kids – science, social studies, arts, math, health, engineering, and English
- [San Francisco Symphony](#) – Learn about tempo, musical notes, and more!
- [KidsKnowIt.com](#) – Totally free children's learning network.
- [ZiggityZoom.com](#) – Another new find for us. Crafts, food, printables, tech, activities, and more. Includes summer fun activities, and homeschooling activities. I really like this site because it's well organized, loads fast, and has a great layout.
- [Everyday Mysteries](#) – Fun Science Facts from the Library of Congress

Websites for Gifted Toddlers and Preschoolers

- [Play Kids Games](#) – Online speed typing test, Color matching (for younger gifted ones), read music!

- [PBS Kids](#) – Great for gifted preschoolers as young as 2 or 3 who are starting to use the computer
- [Dolch Word Games](#) – Great for gifted preschoolers who are naturally learning sight words on their own. The Dolch list is the one that our school teaches/uses in Kindergarten.
- [SesameStreet.org](#) – Great and safe for gifted babies and toddlers!

Math Websites for Gifted Students

>> Also check out our [top 9 math contests](#) for gifted students!

- [Chilimath](#) – This is a well organized site that focuses on Pre-Algebra to Advanced Algebra. A great resource for gifted children who are ready to dive into Algebra!
- [Dreambox Learning](#) – Great math website for gifted children from K-8. Lucy LOVED this site in Kindergarten, and completed the activities through 2nd grade. Parents get daily emails on the progress... terrific and fun technology.
- [Online Math Games](#) – Lizard Math self-graded online and also printables
- [Multiplication.com](#)
- [Math Games](#) – A place where students can practice all aspects of math, including addition, subtraction, multiplication, and division, in a fun and pressure free way.
- [Khan Academy](#) – The Khan Academy is an organization on a mission. Khan Academy is a not-for-profit with the goal of changing education for the better by providing a free world-class education for anyone anywhere. All of the site's resources are available to anyone. It doesn't matter if you are a student, teacher, home-schooler, principal, adult returning to the classroom after 20 years, or a friendly alien just trying to get a leg up in earthly biology. The Khan Academy's materials and resources are available to you completely free of charge.
- [A Plus Math](#) – Interactive math resources for teachers, parents, and students featuring free math worksheets, math games, math flashcards, and more.
- [Math Goodies](#) – Math Goodies is a math help website featuring free interactive lessons, printable worksheets, games and puzzles.
- [Math Aids](#) – Unfortunately this site is painfully slow, but it's the best resource we've found to print free math worksheets.

Science Websites for Gifted Students

- [The Science Explorer](#) – At home or in class science experiments. Site and instructions are simple and easy to follow!
- [Bill Nye Science Demos](#) – Science experiments! Make a periscope, clean a penny, atmospheric pressure, test eggshell strength, make carbon dioxide, learn about static electricity, and learn the difference between fresh water and salt water.
- [Science with Me](#) – Science worksheets, science projects, and games
- [Biointeractive](#) – Multimedia science resources for the classroom or home. Short films, holiday lectures, virtual labs, and classroom resources
- [Science News for Students](#) – Science news on atoms and forces, earth and sky, humans and health, life, tech, math, and more.
- [Exploratorium](#) – The museum of science, art and human perception.
- [Astronomy Games and Puzzles](#) – Lots of free astronomy games for kids
- [Biology Games for Kids](#) – Free human biology and animal biology games
- [Amusement Park Physics](#) – The science behind the fun!
- [Science Fair Projects](#) – Get ideas for your next science fair project
- [National Geographic for Kids](#)

Sustainability and Recycling Websites for Gifted Students

- [Ollie's World](#) – Kids section focuses on water, waste, energy and reusing and recycling. Teacher resources and educator reference section.
- [Environmental Activity book from the EPA](#)
- [Cool the Earth](#) – Cool The Earth is a free, ready-to-run climate change assembly program that educates K-8 students and their families about climate change and inspires them to take simple actions to reduce their carbon emissions.
- [Weather and Climate Change](#) – A good website for climate change basics, forecasting, ancient weather patterns, and more.
- [Kids Ecology Corps](#) – Good primer on water pollution, acid rain, global warming, rainforests, and air pollution. Includes a science activity [how to make acid rain in your own kitchen](#) and several [other fun activities](#) like making your own rainforest.
- [Rustle the Leaf](#) – Tons of printables, comics, and downloads on sustainability for Earth Day or every day!

Geography and History Websites for Gifted Students

- [Geography Games](#) – Loving this in kindergarten and first grade! Fun and exciting geography games.
- [Geography Maps and Games](#) – USA, Asia, Africa, Europe and a fun Latitude and Longitude game!
- [FunBrain](#) – The internet’s #1 website for K-8. Math, reading, geography, and grammar.
- [The Kidz Page](#) – Explore free printable & online kids games, activities, puzzles, clip art, colouring pages and online coloring.
- [National Geographic Kids](#) – Kids games, Animals, Geography, and more.
- [History Games for Kids](#)

Reading, Spelling, and Writing Websites and Games for Gifted Students

- [Online Spelling Bees](#) – Fun!
- [Rainbow magic](#) – Games and activities based on the Rainbow Magic series – Lucy’s favorite chapter books in Kindergarten!
- [Little Monkey Tales](#) – Short stories suitable for young children
- [Raz Kids](#) – Lucy’s younger sister who is in Kindergarten is in a gifted cluster classroom and the school purchased Raz Kids for reading. It’s been a HUGE hit for a reluctant (yet fluent) reader in Kindergarten. Kids work at their own pace and earn stars, take quizzes, and earn ranking. Lucy’s sister is trying to “outdo” her classmates in reading – so it’s great for the natural competitive drive that many gifted kids have!
- [KidsSpell.com](#) – Create your own spelling lists, or choose easier, harder, and hardest games with varying word lengths to challenge all spellers.

Kid Friendly Videos

- [Kideos.com](#) – For kids who would love to get on YouTube. These videos are sourced from YouTube, but screened to be kid-friendly.

Craft Websites

- [The Toymaker](#) – World of paper toys, holiday cards, valentines, sun boxes, baskets and bags, origami and ephemera... all for you to make. Helping grownups and kids spend time together making things.
