What are Bubble Maps?

You may have heard your student refer to making bubble maps in class. The **Bubble Map** is used for describing using adjectives or phrases. It has a large inside circle from which lines extend to smaller outside circles or “bubble.” The connecting “bubbles” contain the adjectives that describe the term.

In Mrs. Cox’s 1st grade, students created bubble maps about themselves. They brainstormed adjectives together as a class, and then the kiddos picked the ones that applied to themselves.
