

Important Notice Regarding Traffic Flow Changes

Jacobson Elementary Drop off and Pick up

Thank you for your patience and support with our traffic challenges. There has been a joint effort the first few weeks of school to find solutions to alleviate traffic congestion around our school.

As a result, we are now implementing traffic flow changes. These are based on recommendations by City of Chandler Traffic Engineers, Chandler Police, CUSD officials, and Jacobson Site Council. These changes are designed to expedite traffic flow in and out of drop off and pick up locations. We ask for your continued cooperation as we familiarize everyone with the new system.

Changes will begin Monday, August 11, 2014.

Student Drop Off/Pick Up in the West Parking lot:

Cars must enter the West parking from the west only (turn right into the lot) and exit west (turn left onto Jacaranda) only. **This pattern is marked in red on the attached map.**

The West parking lot is for K-2 students and siblings only. If you pick up a Kindergarten student, please display the orange paper with your child's name and teacher.

Student Drop Off/Pick Up in the East Parking lot:

Cars must enter the East parking from the east only (turn left into the lot) and exit East (turn right onto Jacaranda) only. **This pattern is marked in blue on the attached map.**

The East parking lot is for 3-6 students and siblings only.

Please note the north side of Jacaranda Pkwy is posted No Parking and the City of Chandler removed the crosswalk so we can no longer use the 15 mph signs on Jacaranda Pkwy. We encourage you to obey the No Parking signs.

Please note S. Oleander Dr. is posted No Parking as well.

Please note we discourage drivers from making U Turns on Jacaranda Pkwy .
