How to Register and Subscribe to Sections of our Website (Schoolwires)

Welcome to the Chandler Unified School District website! We are pleased to host the entire Chandler district website (including all of our schools) on a system called Schoolwires, in order to provide you with helpful information that *you can specifically tailor to meet your needs*. (You can scroll down this page now for an illustrated document or video directions of how to do this.)

Why should I register?

- Are you tired of sifting through backpacks for that all-important piece of paper -- a lunch menu, homework information, a calendar, or newsletter?
- Would you like to be notified electronically about *upcoming field trips*, your child's *big project due dates*, *school events*, *new spelling lists*, *PTO meetings*, or *something else*?
- If you register now in Schoolwires, you can subscribe to any sections of our websites **in which you are interested**, and receive E-Alerts by email whenever there is important news!

If you *haven't* already registered on our website, it's easy to do and the video or document linked below will show you how.

If you *have* already registered in on our website (either because you have a child at another Chandler school, or because you registered last year) -- *that's great*! This video or document will also show you how to login and change your subscriptions to the sections that most interest you.

NOTE: If you can't remember if you've registered already or not, that's OK. It won't hurt anything to register again for a new account, but there is also a button that will send your login information to you, if you have forgotten it.

For a document with **illustrated instructions**, including embedded clickable links, click here.

To play a video of instructions, click on the video below.
(FYI: If the video pauses during playback, you may want to click on it to pause for a moment, and then click play again so the streaming will be smoother.)
