

SNAPSHOTS OF Ms. Hartman's Class

Week of August 26th- August 30th

What We're Learning

Reading- With parent teacher conferences this week we will not be doing a story this week because of the shorten days.

Writing- With parent teacher conferences this week we will not be doing a story this week because of the shorten days. However, we will be publishing our final draft of our opinion piece on the seasons.

Math- We will be working on rounding numbers to the nearest ten, with problem solving strategies of logical reasoning and working backwards. Just a reminder students will be bringing home homework daily so please be sure to check in with them and ask them about which topic we are studying.

Science- We will be experiencing the different phases of the water cycle. We will be creating a lap book, a water cycle bracelet, and a hands on experience of the water cycle on action.

Spalding- Students should be practicing their 30 spelling words. We will be testing on THURSDAY so, please be ready. We will also be introducing our spelling words for next week in class this week with our phonogram practice.

Grammar- No grammar due to shorten school days!

News from PTO

Please send in any and all box tops.
Classroom with the most amount of box tops
gets a donut party at the end of the quarter.

Water Cycle Bracelet

Our bracelet will look something
like this if you are wondering
about the type of beads.

Note from the Teacher:

Looking forward to seeing you
this week for conferences.

We are going to be making a
water cycle bracelet on
Friday. We are in need of
colored plastic beads. If
anyone has any at home that
you are looking to get rid of,
please send them to room 11.
Thank you so very much!
