

## Jostens ReplayIt App

**If you own a smartphone, you can download the Jostens ReplayIt application and contribute photos from your phone to our yearbook!**

1. In your app store, search for ReplayIt.
2. Download the app – it's free! 😊
3. Search for Payne Junior High School (Queen Creek, AZ). It might not pop up as a nearby location, but if you search for Payne, it will be there.
4. Create a login with your e-mail.
5. Take pictures through the app. You can take pictures of classroom activities, sports events, students hanging out, etc.
6. You will need to enter a caption, which would best be the student/students' names if you know it/them.
7. You will also need to choose a category from the drop box (academics, clubs, events, sports, student life)
8. You can also tag the photo and/or identify the person by first name, last name, and grade. (Note: Neither of these steps are required to upload the photo.)
9. Click the upload button.
10. Click 'continue'.
11. The photo will upload to your 'My Pics' folder.
12. The photo will show as pending until it has been approved by Jostens.
13. The photo may be 'Not Accepted' if it is blurry or has anything inappropriate in it.
14. You can check out all the photos that Panthers have been taking by clicking on the Picstream tab.

Thanks for helping out the Yearbook Club! 😊
