

PROTECT YOUR CHILDREN. BE IN THE KNOW.

ARE YOU
KNOWLEDGEABLE
ABOUT TODAY'S
DRUGS OF ABUSE?

We Can Help:

Synthetic drugs are new and still much is unknown about their effects and the dangers. Prescription pill abuse is as prevalent as ever and continues to be a threat in our communities. According to a recent report (National Survey on Drug Use and Health - State Estimates of Nonmedical Use of Prescription Pain Relievers, January 8, 2013), Arizona had the sixth-highest level of prescription pain-reliever abuse in the nation in 2010-2011. 66 percent of Arizona residents ages 12 and above were misusing prescription drugs in that period, compared to a national rate of 4.57 percent.

Being "In the Know" empowers YOU and protects your Child. Our interactive 2-session parent education program focuses on raising awareness about the epidemic levels of prescription drug abuse and emerging synthetic drugs threatening our community. These free sessions are available to parents (at no charge) through their workplace and local community settings in the East Valley.

What you will learn:

- Get the straight facts about youth substance abuse
- How to safeguard your home
- Learn about the latest emerging drug trends
- Recognize Signs and Symptoms of Abuse
- Find quality resources and age-appropriate communication tips to use with your child
- Connect to local resources if more help is needed

About the Presenter:

Stephanie Siete is the Director of Community Education for Community Bridges, Inc. (CBI). Ms. Siete is an expert prevention trainer on drug trends and community resources spending the majority of her time educating the public about the realities of drug abuse. Stephanie has worked in Community Outreach providing education to students, parents, teachers, and administrators for over 12 years. She also continues to train law enforcement, emergency personnel, crisis volunteers and businesses on drug trends, signs and symptoms and drug concealment. Ms. Siete frequently participates in interviews with local television networks and together with the Mesa Prevention Alliance, leads the East Valley Synthetic Task Force (EVSDTF); collaborating with first responders, coalitions and schools to combat the issues of bath salts and spice.

Parents In the Know is a Project funded by the Arizona Parents Commission on Drug Education and Prevention through a grant with the Governor's Office for Children, Youth and Families
