

Cash For Classrooms

During the week of November 2nd – 6th our school is participating in the annual Chandler Education Foundation's Cash for Classrooms Campaign which funds enrichment grants for classrooms and schools across Chandler Unified School District. Even a small donation makes a big difference. Envelopes with the information are going home Monday, November 1st. **We highly encourage you to donate online at ChandlerCashForClassrooms.org** but will be sending home envelopes with the youngest student in your family or the only child attending Santan Elementary. No matter how you choose to donate, **please have your child return their envelope to their teacher.**

Cash For Classrooms grants have impacted **Santan**

- Santan received a school-wide grant last year that was used to purchase our new 3D printer in the STEAM Lab.
- Through previous grants, teachers have been able to purchase engaging and hands-on learning science materials for their grade level and Beebots, which are coding robots to help younger elementary students begin to understand, create, and test algorithms that they have developed.
