

Dear Families of Room F-1,

Below you will find a suggested daily schedule for your child. The third-grade team created a schedule that will look much similar to an in-person schedule that your child will follow once we return to the school building, but also allowed for the flexibility needed for online instruction in the home.

The schedule includes “Live” instructional times as well as the suggested times that your child can access the “Pre-recorded” links for some of the Social Science and Science lessons. During the “Live” instructional times, we will be walking your child through navigating Google Classroom, expectations for daily work completion, engaging them with fun and interactive lessons and activities, and providing an opportunity for community-building and social-interaction! Your child is not required to follow this suggested schedule each day. However, the only opportunities for “Live” instruction and group meets will be during the denoted times on the schedule each morning.

We understand that sometimes your child may not be able to access the “Live” instruction and that is okay. All lessons from the “Live” instruction will be posted on our Google Classrooms each day for students to access whether they need a refresher from the “Live” instruction or need to view it at a later time. Should you have questions or concerns throughout the online instructional period, I will be available via email in the afternoon each day.
