**Created to Help Students with  
Life-Altering Injuries  
and Illnesses**

*Chandler Education Foundation  
in partnership with the  
Chandler Unified School District*

One of the things that make Chandler such a special place is our community's strong advocacy for children. It is evident in the support for schools and youth programs, and it is especially evident in the way the community rallies to support our young people who face catastrophic injury or illness.

The efforts by the Chandler Unified School District employees are legendary on behalf of Haley Knutsen, an elementary student who lost a lengthy battle with leukemia; and Joe Jackson, a Hamilton High student, who suffered a serious injury in football practice.

In these instances, and many more, our employees opened their wallets, service clubs contributed, businesses sponsored special events, students engaged in fundraisers and the community as a whole responded with generosity and compassion.

Because families experience substantial medical costs not covered through insurance, the Chandler Unified School District and the Chandler Education Foundation are **partnering to create a CUSD Student Crisis Fund** to assist the families of our students who undergo life-altering experiences, such as those we've described.
