8:30 a.m. – 1:30 p.m.

**Chandler-Gilbert Community College, Pecos Campus
Chandler, Arizona**

Mission: Increase the number of underrepresented female students choosing to go to college by inspiring them to pursue an engineering and science education and envision future careers in a technical field.

Our Cause: Many young Latina girls don't know what opportunities are available in technology, or what it takes to be an engineer, scientist or a technical professional. They don't even realize it is an option. All too often, there is the perception that these professions are not considered "traditional careers" for Latinas - as reflected by the low number of Latinas that major in the technical fields. This is the segment of our increasingly growing population in Arizona that is most at risk of not being prepared to enter the workforce of the future.

Intel Corporation is collaborating with the Maricopa Community College District to sponsor this pre-college conference. Our target audience is Latina girls, **grades 9, 10, 11 and 12.**

We have a dynamic planning committee comprised of representatives from Intel, IBM, Chandler-Gilbert Community College. We hope that this model serves as a starting point to increase the partnerships between various academic institutions and Corporate America with the common goal of increasing college enrollment and graduation rates in the science and engineering fields.

Program:

- **Welcome** – students will be welcomed to the campus and introduced to the events for the day
- **Hands-on Workshops** - The workshops are comprised of fun, interactive, hands-on activities to introduce concepts in problem solving, teamwork and creativity.
- **Latina Town Hall** – Participants will have the opportunity to meet and speak with successful Latina professionals and learn what they did to get to where they are today. We will also have Hermanas graduates talk about what they did in high school to be successful!
- **Resource Fair** – Educational institutions from the East Valley and Phoenix area will be available to hand out information. All Hermanas participants will be free to visit each booth and take information.
- **Closing Ceremony** – Participants will be able to reflect on what they learned, complete a survey and enter a raffle to win a laptop computer!

Hermanas: Diseña Tu Futuro / Design your future Chandler-Gilbert Community College – Event Date 11/15/2013

In consideration for allowing my child to participate in the Hermanas: Design Your Future/Diseña Tu Futuro Conference without any registration fee: I give full authorization for my child to participate in the Hermanas: Design Your Future/Diseña Tu Futuro Conference. I will not hold Intel Corporation, Maricopa Community Colleges, or any other sponsoring agency associated with this conference responsible for accidents sustained in this program and specifically release them from any claims, demands, or liabilities relating to my child's participation in and transportation to and from the conference. I authorize conference representatives to act on my behalf in case of an emergency. I certify that all of the information contained in this registration form is true and correct and that I will notify the staff of any and all changes. I further agree to allow my child to participate in a survey, photo and/or general participation video session for program promotion purposes only conducted by Intel Corporation for the Hermanas: Design Your Future/Diseña Tu Futuro Conference. I authorize Intel to photograph or videotape my child's likeness for that purpose. I understand that my child's participation may be edited and adapted as is deemed appropriate for the production of photo releases, video releases or commercial purposes or other print products produced by Intel. I further agree that the photographs and videotape taken belong to Intel, and may be duplicated and used for broadcast, exhibition and other use in whole or in part, in any and all manner, forms and media. I expressly release Intel Corporation, their licensees and assigns, any exhibitors, distributors, and broadcasters from any and all claims, demands or liabilities by reason of my child's participation in the said photo/video session and authorize use of my child's name, likeness and biography for all production information, institutional promotion and other purposes in this connection.

Survey information is used to evaluate program effectiveness and will be anonymous. Any survey information released will not allow potential identification of individual students. The risk of participating in this survey is no more than everyday life as the survey is anonymous.
