This workshop provides a Health Care Power of Attorney with HIPAA professionally prepared by Keystone Law Firm (value up to \$495).

For a \$35 donation (per student) to Chandler School Boosters, Keystone Law Firm will prepare and walk you through executing these documents.

Presented by Keystone Law Firm Managing Attorney, Michelle Dexter.

All Proceeds Benefit Chandler Students!

Students will be graduating and off to their next chapter before you know it. Many parents are shocked to learn they can no longer make medical decisions for their kids as soon as a child turns 18. What's more, is that they no longer have any special "rights" to receive private information, such as health care information, without the child's permission.

Keystone Law Firm, an estate planning and probate firm in Chandler, is partnering with Chandler School Boosters to help families secure two legal documents that will give parents peace of mind in knowing they can be a part of their children's health care decisions. During this workshop we walk you through the process of executing these documents and answer your questions.

Frequently Asked Questions:

Q: Do both parents/ guardians have to attend?

A: No, we encourage at least one parent/guardian to attend.

Q: Are there any additional documents we need to bring?

A: No, we will provide all the necessary documentation.

Q: Can I attend without my student?

A: Yes, while we prefer the student learn this information from the lawyer, you can attend the event, learn how to complete the documents and take them home to assist your 18 year old with completing the document.
