

PERRY HIGH SCHOOL

PRIDE ♦ PROGRESS ♦ PURPOSE

Dear STEM program parents and students,

The STEM Experience is the final requirement for the STEM program that current junior students in the program must complete.

The STEM Experience menu and options can be found on the Perry High School website under the “Program” tab and STEM diploma link. Students must choose their Experience they will complete by the end of April, and have it approved by the coordinator. All information can be found on the website. The Job Shadow option is the preferred choice for the program, but not mandatory. If you choose the Job Shadow option, please review the PowerPoint presentation for expectations and goals.

If you have additional questions feel free to call Mr. Mann, or myself, for clarification.

Sincerely,

Joe Greene
Assistant Principal/Curriculum-Seniors
