ABOUT THE LIST AND CRITERIA FOR SELECTION

The books that appear in this annotated book list were evaluated and selected by a Book Review Committee appointed by National Council for the Social Studies (NCSS) and assembled in cooperation with the Children's Book Council (CBC). NCSS and CBC have cooperated on this annual bibliography since 1972. Books selected for this bibliography were published in 2003 and were written for children in grades K-12. The Book Review Committee looks for books that emphasize human relations, represent a diversity of groups and are sensitive to a broad range of cultural experiences, present an original theme or a fresh slant on a traditional topic, are easily readable and of high literary quality, have a pleasing format, and, where appropriate, include illustrations that enrich the text. Each book is read by several reviewers, and books are included on the list by committee assent; the annotations do not necessarily reflect the judgment of the entire committee.

Publishers’ addresses are available in standard reference works such as Children’s Books in Print (R.R. Bowker) and Literary Market Place (R.R. Bowker), and from CBC. CBC’s Members List may be downloaded from the CBC website, www.cbcbooks.org. Credits for permission to reproduce the cover art included in this supplement are printed on page 16.

Titles are arranged by broad subject categories. Although many are appropriate for more than one subject category, they have been placed where their usefulness in so- cial studies education appears greatest. Annotators have also indicated the thematic strands (shown below) from Expectations of Excellence: Curriculum Standards for Social Studies, to which the book relates.
