

Grade 5

Private Information

http://cybersmartcurriculum.org/safetysecurity/lessons/4-5/private_information/

Overview:

By examining and identifying actual online requests for private information, students learn to apply the same safety rules in cyberspace as they use when encountering strangers in the face-to-face world.

Objectives:

- Identify private information.
- Recall that private information should not be given out in cyberspace without permission of a parent or teacher.
- Give examples of how websites request private information.
