## Course Overview

### Course Description

The seventh-grade social studies program focuses on the relationships and interactions between societies and cultures in the Eastern and Western Hemispheres through historical and geographical lenses. Topics include, but are not limited to, the Scientific Revolution and Enlightenment ideas on the concept of rights, revolutions around the world, global imperialism, industrialization and the rise of organized labor, World War I and World War II, and international conflicts of the Cold War to the present, including world government and economic systems. This course will move beyond the general seventh-grade Social Studies curriculum, developing a global perspective of how geography and history interact to create patterns of social interaction throughout time.
