

Mr. Tomaszewicz's Bio Page

I was born and raised in Michigan and attended the University of Michigan-Dearborn to receive my undergraduate degree in mechanical engineering. While I attended the university, I was involved with the school newspaper through writing articles and reviewing movies.

I received my graduate degree from Arizona State University in Education. After being away from school and returning, it made me appreciate the value of learning and a good education.

Early on after I graduated from the University of Michigan with my engineering degree, I found a job at General Electric and worked as an aerospace engineer designing aircraft engines for jets. I enjoyed living in Massachusetts for this brief time and got a chance to appreciate seafood and the cold New England winters.

I also have worked for Ford Motor Co as a development engineer. At Ford, I mainly worked in the field of sound called Noise, Vibration and Harshness. For a number of years, my job included developing the Mustang and Thunderbird convertible tops and lowering interior sound levels on the Mustang.

Music is also a passion of mine and I play the guitar and piano. I have a beautiful wife and 3 lovely children.

If you have any questions, please feel free to contact me at anytime. Please email me at: Tomaszewicz.Keith@Chandler.k12.az.us, or contact me by phone at (480) 224-2153.
