

# College, Military or Career Research Project

You are all faced with important decisions in the near future. It is important to be informed before you make those decisions. You will be choosing a college, military or career and researching it. Your end product will be the creation of a google slide, online brochure, publisher page, or any type of online presentation tool that is a visual advertisement demonstrating the information you researched. You will also need to have a works cited page attached – please reference how to correctly put together a works cited page if you don't know how for MLA formatting. Your first step is going to be to choose two of the three below and put together a research compare/contrast form. Please use the google form attached for this. That form will be due on your next block day. Go to back to: [azcis.intocareers.org](http://azcis.intocareers.org) and use this tool to find many of your answers.

**Username:** bashahs (lowercase)

**Password:** 4Azcis02 (that is a zero)

Hover over Occupations, Education, and Career and look around for information on your college, career, or military to help find answers. Also, look online at specific colleges directly, etc. Use the google form to collect your research for two of the three below.

## COLLEGE

- Location (City, State and # of miles away from here)
- Student Population (Approximate Number)
- Tuition (In and Out of State)
- Anticipated Major +career Choice Explanation of why you have chosen it.
  - Choose a Major
    - Number of Hours Required?
    - Internship Required?
- Most Popular Schools (or Departments)
- Club and National Programs that you are interested in joining during your years at this university.
- Scholarship Opportunities and Requirements of those
- Living options :(choose one) Stay at home, off-campus, or dormitory?

## CAREER

- Qualifications (Education, experience, etc.).
- Starting Salary and Benefits
- Companies Hiring for Position (At Least 3).
- On-the-Job Requirements and Duties.
- Does this job offer health benefits?
- Are there opportunities for advancement? Explain.
- The skills, knowledge and other requirements for entrance into this.
- Set 3 stair-step goals for you to attain this career.
- Any other specialized education or training that will be required after high school.
- What you are expected to do on a daily/weekly basis in your position for that organization.

## MILITARY

- Location (City, State and # of miles away from here)
- Military Branch #
- How long do you have to enlist for? Are there different options?
- What are the financial benefits? (I.e. tuition reimbursement, healthcare, etc.
- The requirements for this branch of the military:
  - Army, Marines, Air Force, Navy
    - Research the careers available in your military and choose one.
  - List the benefits given to you by the military of your choice
  - TIMELINE: How many months or years will your training take? Be specific.
- Explain what you might do after you get out of the military. For instance, using your GI bill to go to college? (All military websites have a link that give you choices for after the military).
