

Spelling Homework Assignment Format Types

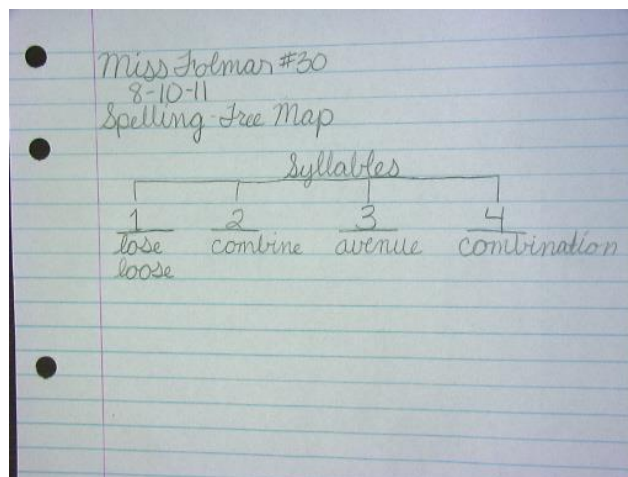

Bridge Map: Write the word in syllables on top, then write it again underneath like normal.

Brace Map: Write the word normally, underline it, and then break it up into syllables next to it, joined to the word with a brace.

Tree Map: This is a way to write your spelling words in categories. It might be a syllable sort, as shown in the example below, but it could be different. Each word should be written the amount of times required by the map!

Other Non-Tree Map formats: [Spelling Scrabble](#)

[Spelling Text code](#)
