

# September Family Challenge

## Personal Celebrations

September 11, 2018

Now that your family has created or updated a mission statement together, it's time for some celebrations!

Auxier's students are doing a great job of celebrating and documenting their academic successes in their Leadership notebooks at school, however, we know that our students have more to celebrate than just what is happening on in the classroom.

For our September challenge, we are asking each student to create a celebrations page for their Leadership notebooks.

In place of homework for tonight, please have each student in your family complete the attached page by adding pictures, drawings, and/or writing about personal celebrations in their life. Celebrations can include sports trophies/wins, music awards, dance/cheer/gymnastics team acknowledgements, and anything else the student is proud of. We have included an example for your reference.

We hope that this is an opportunity for our students and families to get together and celebrate the amazing things happening in their lives!

# My Celebrations

“The more you celebrate your life, the more there is in life to celebrate.”  
—Oprah Winfrey
