

BOGLE JR. HIGH

Parent Information Night

We invite you to attend this informational session about the very popular trend of teen vaping. Juul is the #1 teen vape and is disguised to look like a USB drive. You will learn about nicotine potency, the thousands of flavors targeting youth and why there is a risk of product explosion. The latest vaping devices are also used to conceal marijuana oils. Learn about the new marijuana, known as dabs, was, 710, budder, oil, goo, etc. It is dangerous to manufacture and use in any form, including edibles. WE promise you will learn something new. Students are invited to attend.

Vaping: E-cigs and Oils... Nicotine and Marijuana
