

# CHANDLER INNOVATION FAIR

Saturday, February 23, 2019  
10:00 AM – 3:00 PM

## BREAK OUT SESSIONS

EACH OF THESE SESSIONS START ON THE HOUR (10:00, 11:00, 12:00, 1:00, 2:00)

### Learn to Code – Room D104

Join us for a fun interactive session with industry professionals. Participants will learn and experience the basics of beginning code. All ages welcome. (30 minute session)

### Video Game Design – Room D110

This session, run by industry professionals, will work with participants to design a video game using code.org. Coders of all levels should join us for this hands-on learning experience. (30 minute session)

### Deconstruct a Desktop Computer – Room D105

Have you ever wanted to look inside a desktop computer? In this hands-on session, participants will work with industry professionals to deconstruct and reconstruct a desktop computer. All ages welcome. (30 minute session)

### Deconstruct a Laptop Computer – Room D111

Have you ever wanted to look inside a laptop? In this hands-on session, participants will work with industry professionals to deconstruct and reconstruct a laptop computer. All ages welcome. (30 minute session)

### Deconstruct a Mobile Device – D127

Have you ever wanted to look inside a mobile device? In this hands-on session, participants will work with industry professionals to deconstruct and reconstruct a mobile device. All ages welcome. (30 minute session)

### Engineering Design Challenge – E116

Join us for an engineering design challenge. In this breakout session, participants will work through the Engineering Design Process while working together to solve a problem. All ages welcome. (30 minute session)

Limited spots, signup today:
