

5 themes of geography photographs

Part 1 Directions: Observe each of the photographs on the power point. For each one, please write down which theme of geography it best goes with and a short explanation why. Please use key terms from your graphic organizer in your explanation. As a reminder, the 5 themes are location, place, human-environment interaction, movement, and region.

1. Photograph 1 = _____

Why? _____

2. Photograph 2 = _____

Why? _____

3. Photograph 3 = _____

Why? _____

4. Photograph 4 = _____

Why? _____

5. Photograph 5 = _____

Why? _____

Part 2 directions: Please complete the critical thinking questions below about the 5 themes of geography. Use complete sentences in your responses! If you need more room, please use the back of the paper to write.

A. Why is the movement of ideas and trade important in our world?

B. How might the location of a city in the world help determine how much wealth it possesses?

C. How might dividing the world into regions help us make sense of the world?

D. When is it the right thing for humans to modify (change) the environment around them? When is it the wrong thing for humans to modify (change) the environment around them? Explain why for each.

E. How might understanding more about the human characteristics of an area help us to get along better with other countries in the world?
