Auxier

TechXplorers

3rd to 6th graders who want to create their own technology adventure!

Grade Levels: Students Grades 3-6 at Auxier Elementary School
Time / Day: Tuesdays, 10/22 to 12/10 (not 11/26) 3:15 to 4:00 PM (7 classes)
Location: Auxier Elementary School Computer Lab B
Cost: $60
Instructor: Curt Landon, Auxier ES Technology Specialist

This club provides an exciting, safe, and fun environment for students to explore their interests in technology outside of the traditional and technology classrooms during the school day. Students will enjoy brief introductions to coding tools, robotics, and computer science. Then, students will be empowered to develop their own projects, choose their own tools, and "TechXplore" ways to use their newly created tech to create inventions or solve problems. Students will write code, use robotics, assemble circuits, and create digital graphics. Space is limited, so register soon!
