Site Council By-Laws

- The by-laws were discussed and revised at the 9-20-17 meeting. Proposed changes/updates were made and final copy was reviewed again today for any other corrections. By-laws have been posted online and a copy placed in the Site Council binder in the front office.

School Letter Grade

- Sanborn letter grade is a "C" and we were 4 points from receiving a B.
- Grades are not technically final until December. State is still reviewing the process and some schools (we do not anticipate Sanborn being effected) may have a change in their grade.
- The AZ Merit is more rigorous than the previous AIMS
- 2017 was the 1<sup>st</sup> year all of our students took the test on a computer. We anticipated a dip in scores, however, our students still did quite well

Student Survey

- Discussed results from Spring 2017 student survey
- Most results were positive. Site Council reviewed all the comments from grades 2-6 (kinder and 1<sup>st</sup> do not write comments) to look for patterns, both positive and negative
- Positive comments included;
  - Teachers are well liked
  - School Spirit is appreciated
  - Students feel safe at school
  - Students know the teachers want them to succeed
  - Students feel that they receive help with their work

- Negative comments included;
  - Bullying has improved, but is still happening
  - Lunch food quality
  - Lunch recess, all kids being punished for the behaviors of some
  - Some don't feel safe on the bus
  - Bus drivers not being nice to kids
- Suggested next year to put survey online so we get instant results. Currently all results are tabulated manually which takes a significant amount of time
- Review questions again and change (if necessary) for spring 2018 survey
- Caryn will discuss online option with technology teacher

Meeting adjourned at 4:00 p.m.
