

Chandler Sports League (CSL) Mitigation Plan

The following plan is to help protect athletes, coaches, staff, and parents (fans) from the spread of COVID-19.

Mandatory for All:

- Stay at home if you are sick
- Players should bring their own equipment
- Increase physical distance between players whenever possible
- Always wear a face covering, even athletes in competition
 - Violation for refusing to wear a face covering will be expulsion from the program

Best Practices for All:

- Each athlete is asked to only bring up to 2 parents/guardians and/or grandparents as well as siblings
- All families should sit together and have at least 6 feet between them and other's whenever possible
- Inside venues will be at 25%-50% occupancy for fans depending on the county rate of infections
- Use elbow bumps (not high fives, fist bumps or hugs)
- No treats at games, hydration products only

Coaches should always:

- Engage all athletes and parents with proper social distancing
- Always wear a face covering
- Always help to make sure all parents/fans are wearing a face covering
- Watch the physical closeness of players at practice and in huddles and keep social distancing whenever possible, also be conscious of how close they get when giving instruction and coaching
- Share this document with all families

Site Supervisors and Referees:

- Always have hand sanitizer and face coverings available for all, all athletes and coaches will use hand sanitizer before taking the field or court for games and practices
- Mandate that all parents/fans and coaches wear face coverings at all times
 - If asking a parent/fan doesn't work, they will ask the coach to be involved
 - If the parent/fan still won't wear a face covering the game will be stopped until said parent/fan puts it on
 - If the parent/fan still refuses, that team will be asked to forfeit and leave
 - Failure to wear a face covering will also result in expulsion from the program
- Always have sanitizer available at entry point as well as scoring/ref table
- Sanitize and clean heavily touched surfaces including equipment used
- Give all athletes, refs, and players sanitizer in their hands before the start of each game/practice

I have read and will try to enforce all mandated instructions above to help control and mitigate the spread of COVID-19.
