

# THE ARMED SERVICES VOCATIONAL APTITUDE BATTERY (ASVAB) IS A HEAVILY RESEARCHED AND WELL-RESPECTED APTITUDE TEST DEVELOPED BY THE DEPARTMENT OF DEFENSE.

## 5 REASONS TO TAKE THE ASVAB

1. Your ASVAB score is good for two years -- for all branches of the military.
2. This is your best chance to obtain a high test score. With math and English fresh in your mind, there is no better time to give it your all and see how smart you really are.
3. Your scores are used not only to determine which service you are qualified to join, but also which jobs within that service you are qualified to do. The higher you score, the more career options you have. In addition, your score directly can affect your eligibility for bonuses and money for school.
4. Some find the "student" version of the ASVAB easier. If you have to retake the ASVAB, you will be given a different version.
5. The "student" ASVAB is a great career assessment tool that can help you identify which career areas best suit you.
