GRADES MATTER!!

SCHOLARSHIPS BY SPORT

Only about **2% of high school-athletes** are awarded athletics scholarships to compete in college.

- » Academic scholarships.
- » Athletics scholarships.
- » Expectations.
 - Annual scholarships.
 - Full scholarships.
 - Partial scholarships.
 - Scholarship renewals.

NJCAA Division I colleges may offer full athletic scholarships a maximum of tuition, fees, room and board, course related books, up to \$250 in course required supplies, and transportation costs one time per academic year to and from the college by direct route.

Division II colleges are limited to awarding tuition, fees, course related books, and up to \$250 in course required supplies.

Division III institutions may provide no athletically related financial assistance.

GRADES MATTER!!

NAIA awards over \$800 million in athletic scholarships to student-athletes competing at NAIA institutions each year. While NAIA athletes have the potential of receiving full-ride scholarships, many NAIA athletic scholarships are only partial awards, leaving leftover financial need in many cases. NAIA athletic scholarships are equivalency scholarships, meaning coaches can divide up their scholarship budget between multiple athletes.

NCAA Divisions I and II schools provide more than \$3.6 billion in athletics scholarships annually to more than 180,000 student-athletes. Division III schools do not offer athletics scholarships. Many scholarships are only partial. The chance of getting a full athletic scholarship depends on the program. Only 58% of Division I athletes receive some form of financial aid, ranging from a book scholarship to a “full ride.” The amount is slightly higher in Division II at 67%.

NCAA DI scholarship/roster size changes will potentially start in the 25-26 year, affecting athletic scholarship amounts for all sports. This may have a major impact on recruiting.

Academic scholarships can fill the tuition costs that athletic scholarships do not cover
