Learning Goal for Unit 3, Polynomials:

I can classify, add, subtract, multiply, and divide polynomials and use polynomial functions to model and solve practical applications including the height of a thrown ball.

Judging from your test grade, how well were you prepared for the following sections on a scale of 1 to 5, where 5 means you were fully prepared?

____ R.3 Exponent Rules, Add/Subtract/Multiply Polynomials

____ R.4 Factoring Polynomials

____ 3.1 Quadratic Functions

____ 3.2 Synthetic Division

____ 3.3 Zeros of Polynomial Functions

____ 3.4 Polynomial Functions: Graphs, Applications and Models

Make a note of sections you gave yourself a 1 or 2 on so you can spend extra time studying those areas before the Final Exam.

Reflection: I am happy/unhappy (circle one) with my test score. I will continue/begin (circle one) the following habit:

(list a habit such as: study, come to class, be on task in class, do my homework etc.)

so that I am happy with my next test score.
