## ANCIENT GREECE GEOGRAPHY

### MAPPING ACTIVITY:

You will need to create a reference map showing key locations of the Ancient Greek world. Locate and label the different locations listed below on the blank map provided to you. Please be sure to write small and neatly.

Use the maps located IN YOUR TEXT BOOK (what the heck?!?) throughout Module 5 beginning on page 154 to complete the assignment.

A) Label the following and the color them blue:

1. Ionian Sea
2. Mediterranean Sea
3. Aegean Sea
4. Sea of Marmara

B) Label the following geographical features:

1. Mt. Olympus
2. Peloponnesus (lightly color it green)

C) Lightly color all other land brown

D) What geographical feature do you notice is missing from Greece that has so far been found in all the other ancient civilizations that we have studied?

\_\_\_\_\_

How do you think Greece survived without this feature?

G) Label the following places, use the black dots as reference points for each location:

1. Athens
2. Sparta
3. Knossos, Crete
4. Delphi
5. Corinth

H) Which of the following do you think was more important in terms of the economy of ancient Greece – *agriculture or trade*? Why?
