

**College Algebra Common Final  
Semester 1 & 2 Notes Page**

All MAT 340 students are allowed to use a *one-page 8.5 x 11 paper* that meets the following criteria:

- Must be hand-written and One-sided
- Created by the student
- 8.5 x 11
- NO worked-out or example problems
- Formulas and Notes to Self ONLY

Optional Recommendation for reviewing 8.5 x 11 Document before Common Final:

- If the student would like to use the 8.5 x 11 document, make the 8.5 x 11 document an assignment due before Monday, May 12th.
- You can then review the document to confirm no formulas are present and all material is acceptable.
- Hand back to the student on the day of the final exam.
- This is optional. However, it might assist with monitoring what is included in their paper.

Since the formulas are embedded in each question for the 2nd Semester College Algebra final, there shouldn't be a large emphasis on the one-page formula sheet. Please make sure you follow the recommendations for reviewing the 8.5" x 11" document.
