### 1.01 Journey 2025 - Outstanding Students

*Human Growth & Development* curriculum is an option for school districts. Traditionally, the training has been in 5-6th and 7-8th grades. The District is proposing an online training curriculum so that parents can work with their own children as an option to conducting in class.

*High School Capacity* - Dr. Casteel and Dr. Gilbert reviewed the high school enrollment projections. The District qualifies for additional space from the School Facilities Board with the bulk of the growth at PHS. Dr. Gilbert will begin high school boundary options in October, conducting parent meetings and then present a recommendation to the Board for approval. The boundary changes will take effect in the 2020-21 school year, but the new high school will not open until 2021-22. Community members have expressed desire to participate in the initial design and placement of the high school. The District is compiling a list of those interested in participating.
